## Extra Session In Texas Seems

Have Special Session Come After May 24.

# To Be Certain OF THREE STATES

Kibbe To Distribute From Here For Mexico, Texas and New Mexico.

GOVERNOR HOBBY CALLS OFF

INAUGURAL BALL; LACKS TIME Austin, Texas, Feb. 12.—Governor W. P. Hobby late yesterday issued a statement calling off the inaugural ball which was to have been held on March 2. The governor says that the time of the lexislature is too valuable at prefent to spare the time which would be necessary to decorate the half of the house and the senate chamber.

SAYS LEAGUE OF NATIONS MAY FERMENT DISORDERS (Continued from page 1.)

away, also in violation of the conaway, also in victarius as refluence, attintion, and exected in a tribunol, "the great everwhelming majority of which is composed of allens of our interests and lastitutions." The league promines little guaran-

Diffice and cares to the uttermost parts of the earth."

Must Surrender Policies.

While taking up the obligations of covernment in Asia, Africa and Europe, the United States, he said: would surrender to "Asia, Africa and Europe. American policies, which have been the price jewice in the American dialem of state." Declaring that the consciences of the part, which necessitated assertion of the principles of the Monroe Sections, may arise in the future, senator Pointexter said to be ped the American people had not reached the point where they were silling that "the high theals of these traditional doctrines would be left to the administration of an alien tribunal stabilisited under the league of mallons."

ions."
While senator Paindexter spoke, thairman Hitchesek, of the foreign stations committee and senator sents of Himels, Democratic whip, only many notes.

Heterones by senator Pointernet to be learned serverity council brought.

defend itself to a tribunal made upcight to one, of non-Americans."

Japan en Parity With U. S.

Senator Reed asked if it was true
that Japan would have a vote in the
league senat to that of the Enited
States, which in effect, would mean
that that country would have an equal
right w a nation, although the United
States refused to allow Japanese to
become ettieses. The Washington senator answered in the affirmative.
Senator Necris remarked that
"after all, this is to be nothing
but a treaty," and that conserves
had the power to ignore freaties.
Senator Pointexire instated that the
league should not be considered with
a view of possible late violation with
"dishoner and repudiation."
Repodiation under the league plansaid Mr. Pointesate, would bring
upon the United States the full military and economic power of all the
world.
Senator Norris denied that he adveorid. Senutor Norris denied that he adve-ated making a treaty with a view to a repudiation.

## FACTS— Not Slurs

We are asked again why we do not publish the fact that Burt Orndorff is a Republican. We have published it in all our po-litical advertisements. But we will publish it again.

#### Orndorff Is a Republican

He voted for Hughes in the last election. He is vehemently opposed to President Wilson. He was one of the volunteer delegates to Oyster Bay to urge Col. Rossevelt to make the race for president. Again Mr. Orndorff put himself on record as a Republican when a committee of Democrats from Las Cruces, during the last general election, sought financial aid in Il Paso to help out the Democrats of New Mexico. Mr. Orndorff declined to contribute to help the New Mexico Democrats on the ground that he was a Republican.

#### This Is a Democratic Primary

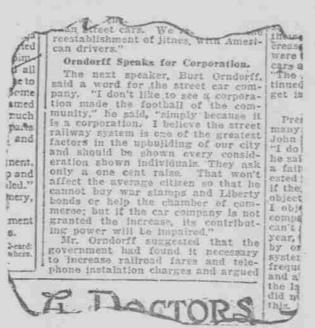

In which the Orndorff family is trying to get complete control of the city and county political and financial machinery, and it would seem that the Orndorffs are playing both the Democratic and Republican partisans for aid and support. This is a family affair that staggers most people who stop to think about it; but there might be some pretext of an excuse for it if Burt Orndorff were a Democrat seeking office and more power at the hands of Democrats. There might be some little excuse for this family affair if it were a Democratic family affair. But this thing of attempting to use Democratic politics in a Democratic town as a plaything for personal ambitions and personal greed, both politically and financially, is something that ought to be sat down on by Democrats. It will be sat down on.

#### Democrats Will Vote For a Democrat

There is no crime in being a Republican, and perhaps no severe criticism should be directed at Republicans who feel themselves qualified to vote in a Democratic primary on the ground that it is a local affair. But when out-and-out Republicans, who refuse to aid Democrats, when the Democratic party needs help, undertake to make their beds in the Democratic camp and to take their meals at the Democratic pie counter, a different proposition is presented. We see no reason why a Republican of Mr. Orndorff's well-known prejudices against the Democratic party should be permitted to use the party for personal ends. Do you? If the Democratic party is not good enough for him to affiliate with as a Democratic partisan in the ranks, Democrats should see to it that he is not permitted to affiliate with the party as an officeholder. Why have a Democratic party if we are going to vote for Re-

### Who Wants Orndorff For Mayor?

Who is behind him? They say the people are behind him. Did Mr. Orndorff represent the people when he appeared before the city council on the 10th of last October, only a few months ago, and urged the council to grant the street car company a 6 cent fare? And does Mr. Orndorff now deny that he did this? Is it because he wants the votes of the people? Sure! Mr. Orndorff is one of those who thinks that it is an easy matter to humbug the people in politics. But we are not going to let him successfuly deny his advocacy of a 6 cent street car fare if we can head him off and keep him headed off. Look at the photo-copy herewith of the Herald's report of a part of what Mr. Orndorff said before the council in behalf of the street car company. Look at it. Read it. And if you don't see Burt Orndorff in that statement, then you don't know Burt Orndorlf.

#### A Friend of the Corporations

Mr. Orndorff is posing as a friend of the people now. But he is a friend of the corporations. Mr. Orndorff would have granted an increase in the gas rates if he had been mayor. He says now, of course, that he would not. But Mr. Orndorff is a candidate now. He wants votes. When he wasn't thinking of running for mayor he didn't believe in "making a football of public corporations." Mr. Orndorlf is too recent a convert to the people's side to warrant much confidence in his political professions. Mayor Davis and the city council are today responsible for reasonable gas rates and a 5 cent street car fare.

#### The Money Behind Orndorff

We don't know how much money there is behind Mr. Omdorff, but there is plenty of it. In this election it is a clear case of the people against the interests represented by Mr. Orndorff. It is a case of the people against the old combine that has run things with a high hand in El Paso. Jackson and Lea and Ware want to get back into power. They can't run Charlie Davis. They can't dictate his policies. They can't run things as they did when Tum was mayor and Dan district judge and Ware the professional campaign manager. They have had their taste of power and they want to get back in. They are promising everything for power. They are charging Mayor Davis with everything. They want you to vote against him. But the people are not as gullible as the Orndorffs thought they were. The Orndorffs have too much power already, There is no reason for giving them more, but many reasons why they

#### The Budget System

As to the money spent by the Davis administration, we have only to mention the fact that all expenditures of the city are covered by budgets made up at the beginning of each fiscal year, in which the money to be used for the different departments of the city is provided for. These budgets are made public, published in the newspapers, and are open to the inspection of all men. There is no mystery about the expenditure of the city's funds. The budget system is intended to safeguard the city's finances, and at the time the budgets of the Davis administration were made up no one thought to criticise or question them in any way. They were honest and economical budgets, made up by the council as a whole, and prepared by the finance committee, of which J. P. O'Connor is chairman. So when they try to tell you that the Davis administration has spent a lot of money that nobody knows anything about, just charge such statements up to politics, and let it go at that. There is no truth in such statements,

#### Don't Take Our Word For It

We don't ask you to take our wood for anything. We only ask you to investigate for yourself. If you want to know the truth, look at the other side. Don't look at our side at all. When the Oradorff people tell you that Mayor Davis has spent \$490,000 more than his predecessor, and insinunte that Mayor Davis is a crook and that nobody knows what became of the \$490,000, ask them to point out to you in what particular there is anything wrong with that item. They know as well as we do what became of the money, and how it appears that Mayor Davis' administration used \$490,000 more money than his predecessor. But they know that you don't know. They merely invite you to question the honesty of Mayor Davis without giving you any reason for it.

Mayor Davis has not spent \$490,000 more than Tom Lea ent in the sense in which they put it. But let's see. Mayor Tom Lea spent \$383,000 more money than was spent during the last term of Mayor Kelly's administration. Mayor Davis spent \$262,-000 more money than was spent by Mayor Tom Lea. Anything suspicious about that? The truth of the matter is that Mayor Davis spent less money in the matter of the actual expenses of the city government than did Mayor Lea. They tell you that Mayor Davis had the benefit of the \$76,000 received by the Lea administration on the sale of the old fire department property. This is not true. They are merely throwing dust in your eyes. We tell you, and it is a fact, that the \$76,000 received by Mayor Lea's administration went into the general fund, and was used by that administration for current expenses, and that when Mayor Davis came into office he paid out of the funds of his administration \$80,000 for the purchase of a new fire department site and building and a new jail.

They are merely juggling figures with you. We tell you that even if the \$76,000 received by the Lea administration had been passed on to the Davis administration, that nevertheless the Davis administration paid for the new live and police stations the sum of \$80,000, and that this is a part of the sum charged against the expenses of his administration, no matter where the money came from. And yet they ask you with great insinuation what became of the money they charge up against the Davis administration.

Mayor Davis has paid to the support of the city schools the sum of \$94,000 more than was paid by the Lea administration. And let us call your attention to another difference. Mayor Lea's administration received \$111,000 more money from indirect sources. saloon licenses, than has been received by the Davis administration. And another difference is that Mayor Lea's administration put into the general fund the interest on city deposits, and used the money for current expenses of the city. Mayor Davis has put this money into the sinking fund, where it belongs, to meet the interest on the bonded indebtedness of the city, adding another \$97,000 to the charge they make against him, because he has not access to that amount, as Mayor Lea had, and has to draw it from the general fund, another charge against him that was not a charge against Mayor Lea's administration.

#### Don't Be Fooled

Here is something else to think about, if you are a seeker after the truth. Mr. J. P. O'Connor is the chairman of the finance committee under the Davis administration, as he also was under the Lea administration. Mr. O'Connor had direct charge of the finances of the city. He is now the Orndorff candidate for alderman. The Omdorff forces have great confidence in Mr. O'Connor. So have we. We have such confidence in him that we feel positive he will not be heard to criticise the financial management of the city's affairs under the Davis administration. Such criticism is left to political speakers. Political speakers attack Mr. Davis, as if he personally had spent every dollar of the city's money. They don't tell you that Mr. O'Connor, their candidate for ald

There is no quarrel between Mr. Davis and Mr. O'Connor. Both are honorable and honest men. Both are reputable citizens. Both have served the city to the best of their ability. The integrity of each is above suspicion. Yet, it is attempted to create the impression that Mr. Davis is a crook, while Mr. O'Connor is entitled to confidence. We do not believe the public will swallow such inconsistency as this. In truth, this is outrageous inconsistency.

Now, in answer generally and specifically to each and every published invendo seeking to direct question as to the competency of the Davis administration, let it be said once and for all that if Mr. O'Connor knows of a single dollar of money that has been spent that should not have been expended, or of a single warrant that has been drawn which he himself did not O. K., Mr. Davis will appreciate it if Mr. O'Connor or Mr. Orndorff, or Dan Jackson, or Tom Lea, or any of the orators of the opposition will call attention to such items by pointing them out. Advertise them to the public. Advertise any item, however small, that was not O. K.'d by Mr. O'Connor. That is the fair way, the sincere way, the honest way.

This is our proposition. And we want it understood that we are not attempting to do other than call for a fair deal, even if this is a political campaign. We have pitched this campaign on a clean level and we are going to keep it there. Nothing the Orndorff people can do is going to provoke us to engage with them in duty politics. We simply challenge them to lay their cards on the table with us. Let's show hands fairly and honestly to the public, with Mr. Davis on one side of the table and Mr. O'Connor on the other. And then let the public judge whether there is warrant, justification or excuse for invendoes and insinuations such as are creatures of minds bent upon aftempting to create false impressions among people who do not have the opportunity to investigate and know the truth. but who have to rely upon offerances of politicians for their opinions. Come To Liberty Hall Thursday Night, Feb. 20, If you want to hear these and many other questions discussed fairly and as they should be. The truth will be told at this meeing by Victor C. Moore, C. L. Vowell, Mayor Davis And other competent and able speakers. It will be a big Davis rally, and the speeches will be well worth hearing. Maybe you will learn why Mr. Omdorff wants to be mayor. Come out.

The voters of El Paso owe it to their city to attend this meeting so that they may hear the truth about the political situation in El Paso and what confronts the future welfare of the community.

DAVIS CAMPAIGN COMMITTEE.
